To Whom It May Concern:

Aquadyne Associates has been the Mechanical Associates representative in Northern California since 2009 and has been supplying the needs of municipalities in our area successfully including specification writing, bidding, submittal packages and finally providing fabricated slide gates in the field.

We like working with Mechanical Associates because they respond quickly and produce a quality product that we have had very few problems with in the last four years. Their entire staff will go the extra distance to make sure the customer is satisfied. I believe that their relatively small organization and private ownership accounts for their performance.

If you have any questions please feel free to call me.

Mike Ambrosi
President
